

trimstix FAQ

Q: How do you recommend using Trimstix?

A: We recommend having one serving of Trimstix after your midday meal with 8-12oz of cold water within 30 minutes after being mixed with water. Please see the Trimstix Supplement Facts for additional supplement information. If you'd like more information, please reach out to products@xyngular.com.

Q: What makes Trimstix different from other weight loss and blood sugar control products?

A: Trimstix utilizes the patented, all natural proprietary blend of My Sugar Defense™, which has clinically shown to help control healthy blood sugar levels in healthy individuals and curb cravings for long term weight loss and weight management.

Q: What part of Trimstix helps to curb sugar cravings?

A: My Sugar Defense™, the clinically proven blend of all natural ingredients, helps to maintain healthy blood sugar levels in healthy individuals and curb sugar cravings.

Q: What other products can I take Trimstix with?

A: Xyngular products go great with Trimstix! You can take Trimstix with Accelerate or any of your other Xyngular products. If you are looking for an ideal combination of products for long term weight loss, use Xyng, Lean Meal, and Trimstix.

Q: How do I incorporate Trimstix into the 8-day challenge?

A: Trimstix can be used in conjunction with Accelerate following the noon meal and can be used 30 minutes before exercising to enhance your workout.

Q: What is the benefit of taking three throughout the day, instead of just one?

A: By taking three throughout the day, Trimstix can increase your energy, and help increase fat loss, if you are active.

Q: How long can I take Trimstix before I should take a break?

A: We recommend taking a 1-2 week break after continuously using Trimstix for 12-16 weeks.

Q: Can I use Trimstix if I am pregnant or breastfeeding?

A: Please consult your physician before taking Trimstix.

Q: If am Diabetic, will Trimstix help and can I take Trimstix with my medication?

A: Please consult your physician before taking Trimstix.

Q: Where is Trimstix made?

A: Trimstix is made in the United States in a Good Manufacturing Practice (GMP) compliant facility.

Q: How much does Trimstix cost and what is the PV?

A: The retail price of Trimstix is \$78.00 (USD) and the wholesale price is \$65.00 (USD) and the PV for Trimstix is 45.

Q: Is Trimstix available in Canada?

A: At this time, Trimstix is available for individual sale by phone through Member Service.
